DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,3-7,9-12,14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 6, 7, 14 and 15

Claims 1,6,7,14 and 15 recite the limitation "the feedthrough capacitance". There is insufficient antecedent basis for this limitation in the claim.

Claims 4, 5 and 10

Claims 4, 5 and 10 recite the limitation "the capacitance value". There is insufficient antecedent basis for this limitation in the claim.

Claims 4, 5 and 10 recite the limitation "the gate source capacitance". There is insufficient antecedent basis for this limitation in the claim.

Claim 12

With regard to claim 12, the applicant recites an integrated circuit comprising a transceiver as claimed in claim 1. Claim 1 does not disclose a transceiver.

Allowable Subject Matter

Claim 13 is allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose or fairly teach a plurality of feedback

capacitors, each connected to one of the transconductors, wherein currents through the feedback capacitors in the feedforward transconductors is substantially equal to and opposite of currents through the feedback capacitors in the feedback transconductors, thereby neutralizing a feedthrough capacitance of the gyrator.
